Christchurch, New Zealand • Open to relocate nationwide | 022 398 2998 | patelkeyur.2312005@gmail.com |
github.com/patelkeyur231 | patelkeyur231.github.io/keyur-patel-portfolio

CAREER OBJECTIVE

Bachelor of Information Technology (NZQF Level 7) student at Whitecliffe College, Christchurch, with hands-on full-stack development experience across web, mobile and desktop applications (JavaScript/React, React Native, Node.js, C#/.NET). Combines these technical skills with three-plus years of customer-facing and team-leadership experience gained while working through study. Available now for part-time or volunteer roles to keep building practical experience, and seeking a software development or IT internship anywhere in New Zealand from 25 February 2027; based in Christchurch and open to relocating nationwide.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C#, HTML5, CSS3

Frontend: React, React Native (Expo), Bootstrap 4, SASS

Backend & APIs: Node.js, Express.js, .NET, Windows Forms, RESTful APIs

Databases: MongoDB, Firebase (Authentication & Firestore), SQL

Tools & Practices: Git & GitHub, Agile/Scrum, Unit Testing, Software Testing & QA, npm

Core Strengths: Team Leadership, Staff Rostering, Customer Service, Time Management, Problem-Solving, Adaptability

EDUCATION

Bachelor of Information Technology (NZQF Level 7)

Jul 2024 – Expected Jul 2027

Whitecliffe College, Christchurch, New Zealand

Relevant coursework: Software Development Fundamentals, Web Concepts, Client-side Development, Data Structures & Algorithms, Event-driven Programming, Web Programming, Mobile Development, Advanced Mobile Development, Agile Project Management, Secure Web Application Development, Data Access & Management, Web Services, Software Testing & Maintenance, Advanced Programming, Interaction Design, Web Technologies.

Higher Secondary Certificate – Science Stream

2021 – 2023

Sahjanand School of Achiever, Gandhinagar, Gujarat, India (Gujarat Secondary & Higher Secondary Education Board)

CERTIFICATIONS

What Is Generative AI?

Sep 2026

LinkedIn Learning — Course 1 of 5, Career Essentials in Generative AI by Microsoft and LinkedIn

PROJECTS

PizzaHub – Mobile Ordering App

React Native (Expo), Firebase Authentication, Firestore | github.com/patelkeyur231/pizzahub

- Built a cross-platform mobile app for browsing a pizza menu, managing a cart and checking out.
- Implemented Firebase Authentication for sign-in and Firestore to store menu and order data.
- Structured navigation across Login, Home, Menu, Cart and Confirm screens using React Navigation, with a shared CartContext for cart state.

Portfolio Website

HTML5, SASS, Bootstrap 4, JavaScript | github.com/patelkeyur231

- Designed and built a responsive single-page portfolio site using semantic HTML5 and SASS (variables, mixins, nesting) compiled to minified CSS.
- Implemented the Bootstrap 4 grid with a JavaScript-driven mobile navigation menu and an animated project overlay.

Bank4U – Bank Account Management System

C#, .NET, Windows Forms | github.com/patelkeyur231/20231990-bank4u-sprint1

- Built a C# domain model (Customer/StaffCustomer, and Everyday/Investment/Omni accounts) using inheritance and abstract classes to handle deposits, withdrawals and interest rules.
- Windows Forms GUI in progress to expose the domain model as a working desktop app.

Bowling Game Scoring Engine – QA & Testing Project

Python, unittest, PythonDoc | github.com/patelkeyur231/bowling-game-project

- Implemented ten-pin bowling scoring logic covering strikes, spares, open frames and 10th-frame rules, with input validation.

- Wrote 12 unit test scenarios using Python's unittest framework, plus a test plan and summary report; generated PythonDoc documentation.

BNB – Room Booking System (Group Project)

PHP, MySQL | github.com/patelkeyur231/BNB

- Contributed to a room-booking web application: booking creation, editing and deletion, customer search and session management.

Student Management System (Group Project)

Python, Django, HTML | github.com/patelkeyur231/student-management-system

- Collaborated on a Django-based student management system with role-based logins for admin, lecturer and student, and demo data seeding.

MyPetCare

React, JavaScript | github.com/patelkeyur231/mypetcare

- Built a React front end for a pet care service, presenting health, grooming and well-being offerings to pet owners.

GoNZ – Tourism Booking App

Python, Django, Bootstrap | github.com/patelkeyur231/it6036-shaheensystems

- Built a Django web app for a NZ tourism agency, modelling Agents and Tours with Bootstrap-styled templates.

WORK EXPERIENCE

Domino's Pizza – Carlton Corner, Merivale, Christchurch

Store Manager

Dec 2025 – Present

- Promoted from Delivery Expert to Store Manager after just over a year, recognised for reliability and leadership.
- Lead day-to-day store operations, staff rostering and stock control for a high-volume outlet.
- Maintain customer service standards and keep the team working efficiently during busy periods.
- Train and support new team members, coordinating tasks across shifts.

Delivery Expert

Oct 2024 – Dec 2025

- Delivered pizzas and other menu items efficiently and safely across the local area.
- Provided excellent customer service during deliveries and handled customer transactions.
- Assisted in-store with order preparation and cleanliness during busy periods.

Commercial Cleaner

Jul 2024 – Present

Cleantastic (cleaning franchise), Christchurch

- Maintained cleanliness and presentation standards across commercial sites.
- Developed a strong work ethic, reliability and attention to detail.

Kitchen Hand & Healthcare Assistant (Practicum)

2023 (approx. 6 months)

Burlington Village Rest Home, Christchurch

- Supported residents with daily care needs in a residential aged-care setting, building communication, patience and reliability.
- Assisted with kitchen duties, food preparation and hygiene standards in a fast-paced care environment.

AVAILABILITY

Available now for part-time or volunteer work (20–25 hours per week, in line with student visa conditions), and for a full-time internship placement from 25 February 2027. Open to full-time, part-time, volunteer or fixed-term arrangements.
